Objection

Q) "The water flow isn't strong enough in the shower mode for hair washing and showering"

Response

A)"Have you tried showering under it? I have! We don't boast it's a high pressure water shower, it's very difficult to fit a high pressure shower in your pocket.

A) It's NOT a power shower - It's a tap primarily!

A) The Shower is a mode - one of 3 modes

A) It's a water saving device NOT a high power shower

A) SpaTap is designed for maximum water efficiency, maximum Spray using minimal water, delivered via internal fluid dynamic technology.

E.g 1.25 litre of water = 13 minute wash in shower mode
